

Walk Safe to School!

- Look up and stay alert. Don't text or talk on the phone, and take off headphones or ear buds before crossing the street.
- Walk on the sidewalk or on the far left off the side of the road, facing oncoming traffic if there is no sidewalk.
- Make eye contact with drivers. Look left, right, and left again before crossing the street. Do not cross mid-street or between parked cars.
- Follow the crossing guard's instructions to cross the street safely.
